An Interview
With

CHRISTIE BRINKLEY®

Q: What is the overall mission of Christie Brinkley? What is your inspiration?

A: I grew up in Malibu as a surfer girl and have worked on beaches all over the world as a model, so my mission was to develop a line which can both repair damage and protect skin from the sun and other environmental stressors. That's why my line includes the best sunblock technology on the

market, protecting not only against UVA and UVB rays, but also against harmful IR rays, which can damage skin indoors as well as outdoors! IR Defense will eventually be an industry standard, like UVA and UVB defense. My line is just years ahead of the pack. In fact, my Recapture 360 Anti-Aging Cream has received the seal of recommendation from 'The Skin Cancer Foundation'.

Q: What is your favorite product?

A: For more than 4 years, I tried and rejected many formulations until my world class experts handed me the beautiful Recapture 360 Day and Recapture 360 Night products. These are my two favorites because they work so well together. They protect and repair my skin all day, and rejuvenate my skin while I sleep.

Q: With so many skin care brands and products out there, what makes Christie Brinkley Authentic Skincare different?

A: The IR technology is next generation. It is absolutely where the rest of the industry will be in the future, but for now, we are happy to be the vanguard, the new standard for protection. I also think that the women who use and love my brand are unique. They do not just want a product; they want to be a part of a wellness community.

Q: How should our skin care routines change or adapt as we approach the holidays and change in seasons?

A: The second your heater goes on you need to drink more water! It is very important for your skin. After exfoliating I use my PURE RADIANCE Illumination Facial Oil. Once the oils sink in, I then use the RECAPTURE 360 + IR Defense Anti-Aging Day Cream and my skin feels great all day long. I use the PURE RADIANCE Illumination Facial Oil again in the evening before applying my RECAPTURE 360 Night Anti-Aging Night Treatment. And drink another bottle of water!
