INTRODUCING

GLOSSYBOX

SKINCARE

Glossies, we have some amazing news we've been dying to share with you... We have launched our own skincare range! We wanted you to be the first to try it, so we've nestled a full-size GLOSSYBOX Skincare Eye Boost Cream inside your August 'Birthday' edit.

GLOSSYBOX Skincare: "for you, by you"

Every single product in this incredible range has been developed specifically from your feedback using surveys and social media comments.

You told us you wanted your skincare to be:

Clean and simple – no complicated names or formulas.

Affordable – with products made from quality ingredients.

Effective – where you can see instant results.

That's exactly what GLOSSYBOX Skincare is all about!

We have everything covered, as all of these products are tailored to specific skincare concerns and can be mixed and matched to suit your needs.

Simple, Effective, No-Nonsense Skincare

We're proud to say that all our products are vegan, cruelty-free and formulated without any nasties. We use only the best ingredients that are safe yet effective. We also promise to be transparent. We highlight the three hero ingredients in each formula on our packaging, so you know exactly what you're putting on your skin and how they're working their magic.

Affordable, Easy-To-Use And Multifunctional

As a subscriber, you get 20% off the whole collection, with all products costing between \$16 and \$22. Better yet, some of the products in our range are multifunctional, so you can make your routine as efficient and effective as possible without splurging on unnecessary products. Our 3-in-1 Moisturisers, for example, can be used as a primer under makeup!

Eco-friendly, Cruelty-Free And Natural

We know how much you care about the environment – and we do too! Not only are all our formulations cruelty-free and at least 87% natural, but the packaging is made of 100% recyclable sugarcane (where possible). We even used 100% renewable electricity and created zero landfill waste. The products are also made in our own facility in the U.K. so we know what's going in and out!
