Tweezers

Expertly shape your brows with this classic slant tip tweezer in our favorite color: pink! The perfectly aligned, hand-filed tips grab the hair every time for minimal effort and zero discomfort during a shape-up.

Tip / When's the best time to tweeze? After you shower. Warm water opens the follicles and softens hairs, helping them slip out more easily.

MSRP / \$20

Cry Baby + Bad Attitude Hair Masks

This dynamic duo brings more to the table than attitude: with six-free ingredients (buh-bye sulfate, parabens, gluten and other junk) and a mission for hydration, say hello to volumized, softer hair after one use.

Tip / Comb the hair mask through your hair (with a wide tooth comb) for even distribution and less tangles later. It's a double-duty tactic!

MSRP / \$2.99 each
