**SLIDING WARDROBES  
& STORAGE SOLUTIONS**

#### MAXIMISE ANY ROOM

Custom sliding doors that fit any space from **1.15 - 2.48m high & 1.15 - 4.55m wide.**

#### SPACE SAVING

Save **up to 0.5m** in front of your wardrobe doors. You don't need to allow any space in front of the wardrobe that you typically would for a hinged wardrobe.

#### ADAPTABLE STORAGE

Move your storage to any position in your wardrobe to best suit your needs. Available in matching finishes to your door choice.

## WHY CHOOSE SLIDING DOORS AND MODULAR STORAGE?

- SPACE SAVING
- EASY TO INSTALL
- LARGE SELECTION OF DESIGNS & FINISHES
- FITS ANY SPACE
- USE IN ANY ROOM
- COLOUR MATCHED ACCESSORIES & INTERIORS

Spacepro Home sliding doors and storage solutions are non-carcass based systems that offer the look of fully fitted furniture, without asking you to take into consideration the extra space you would need to open a hinged door. Our doors glide effortlessly from side to side on a trackset and can be fitted from floor to ceiling and wall to wall to make the most of your space. If you don't have an existing alcove, you can create your own professional frame by using our colour matched end panels and liners, which will allow you to create a wardrobe to suit any room.

ALL OUR GLASS IS  
**SAFETY BACKED**  
FOR ADDED PROTECTION

**10**  
**YEAR**  
MOVING PARTS  
GUARANTEE

ALL OUR WOOD MATERIALS ARE  
**SUSTAINABLY SOURCED**

 **MADE IN<sup>®</sup> BRITAIN**

Spacepro Home is one of Europe's leading suppliers of contemporary bedroom furniture. We supply products around the world into DIY, construction, new-build and online markets.

All products are produced in Sheffield and proudly carry the "Made in Britain" mark. Since 1975.

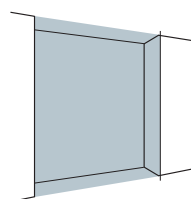

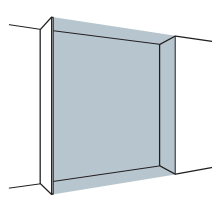

**Master Bedroom** Add a touch of luxury into your master bedroom.

## SOLUTIONS FOR EVERY ROOM

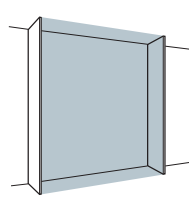

Get creative - our doors and storage systems are not only for the bedroom! Hide away boots and coats in the hallway, turn awkward spaces into a home office, transform the eaves in your attic into useful storage or even add a bit of luxury with your very own walk-in wardrobe!

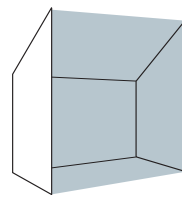

wall to wall

wall to end panel

end panel to end panel

loft / angled ceiling

Sliding doors that fit any space from **1.15 - 2.48m high** and **1.15 - 4.55m wide** with a selection of fixed and custom sized doors, plus accessories to fit them.

**Walk-in** If you have a spare room or empty space that is calling out to be a glamorous walk-in wardrobe, our storage systems can be built for any space.

**Under Stairs** Make the most of unused spaces.

**Home Office** Organise the clutter and turn empty spaces into your very own home office.

**Loft** Reclaim the space lost to pitched roofs. Make your loft room just as stunning as the rest of your home.

# MEASURING UP FOR YOUR NEW WARDROBES

## 1 MEASURE UP

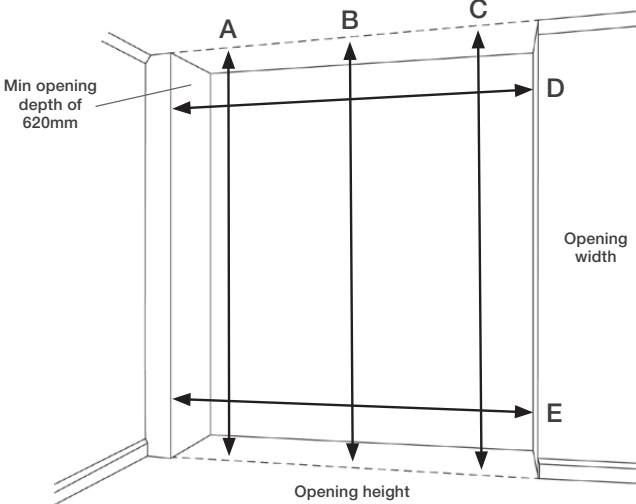

It's really important to prepare your project by measuring up your space, ensuring all doors fit correctly.

**Why we need your measurements:**

**Height** – No ceiling and floor are perfectly level, so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

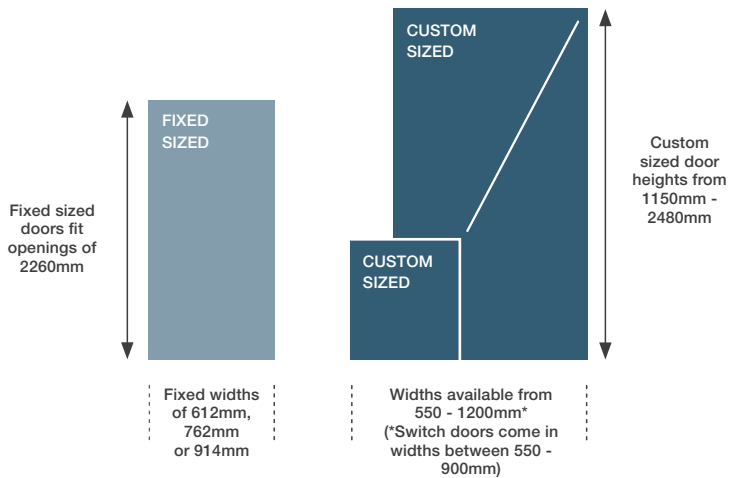

**Width** – Measure at the top and bottom of your space D and E.

**Depth** – Our interior systems require a minimum depth of 620mm.

## 2 IDENTIFY YOUR SPACE

Once you know what space you have to work with, we have two door options to help you achieve your project. Using our fixed or custom sized doors you will be able to maximise your space and organise belongings with ease.

## 3 CHOOSE FIXED OR CUSTOM SIZED DOORS

	Sizes	Finishes	Soft-Close Included	Trackset	Fitting Accessories	Installation Time
Fixed Sized Doors	Available in 3 widths 610, 762 & 914mm. Fits height of 2260mm	Selection of finishes	N/A	Sold separately - will need to be cut to size. Silver and White only	If room height is over 2260mm then fitting accessories will be needed	Allow some additional time to cut tracksets to size.
Custom Sized Doors	Made to fit any opening	Full range of finishes	✓	Included and cut to your opening. Colour matched to frame	Made to fit your opening.	All items are made to fit, so each item can fit right in.

### CALCULATE HOW MANY FIXED SIZED DOORS YOU NEED

When buying one of our fixed sized door options you will need to calculate how many doors you need to fit your opening as well as what width of door. As each of our door frames is different, we have created a simple calculation table to do this.

Classic doors **35mm**  
Linear & Loft doors **35mm**  
Element doors **32mm**  
Duo doors **25mm**

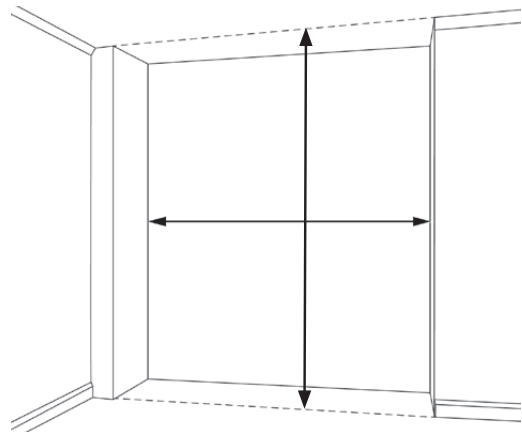

<b>Ideal opening width* for 2 doors = ( 2 x Door width ) – ( 1 x Overlap )</b>
<b>Ideal opening width* for 3 doors = ( 3 x Door width ) – ( 2 x Overlaps )</b>
<b>Ideal opening width* for 4 doors = ( 4 x Door width ) – ( 2 x Overlaps )</b>

**Example:** Classic 3 x Door opening (3 x 762mm wide doors = 2286mm)  
Deduct 70mm for 2 overlaps (Classic frame is 35mm wide) = **2216mm opening width.**

# MEASURING UP FOR YOUR NEW WARDROBE INTERIOR

## 1 MEASURE UP

It's really important to prepare your project by measuring up your space. This will ensure the chosen storage system fits perfectly.

## 2 CHOOSE YOUR STORAGE SYSTEM

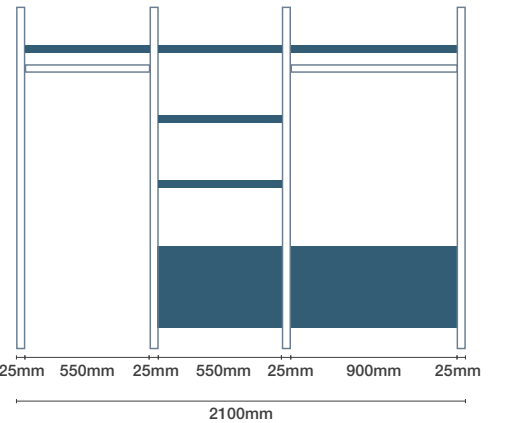

Now you have your measurements, you can start to plan your interior storage solution. Our stanchion based systems can run from floor to ceiling or floor to wall depending on your space and needs.

<b>RELAX</b> Stanchion width <b>30mm</b> For <b>550mm</b> accessories. Width plus 2 stanchions = <b>610mm</b> For <b>900mm</b> accessories. Width plus 2 stanchions = <b>960mm</b>	<b>AURA</b> Stanchion width <b>25mm</b> For <b>550mm</b> accessories. Width plus 2 stanchions = <b>600mm</b> For <b>900mm</b> accessories. Width plus 2 stanchions = <b>950mm</b>
---	--

## 3 PLAN YOUR MODULAR STORAGE

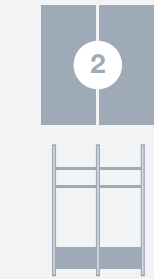

When planning your modular storage interior, start with the first column to the far side of your space, then add on additional columns until you have filled your space.

Most accessories are 550mm or 900mm wide, but we have adjustable components that can be cut to size to fill in that extra space.

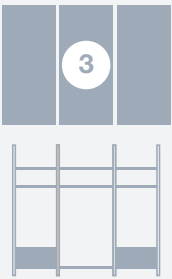

### ACCESSORY PLACEMENT & ARRANGEMENT WITH DOORS

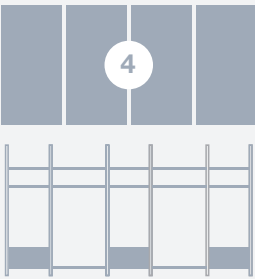

When using any pull out accessory (i.e. drawer units) we recommend making your doors at least 100-200mm wider than the storage column behind. This gives you plenty of breathing space for the drawers to open without clashing where the doors cross over.

**2 door opening**  
Position the drawer to the left or right hand side.

**3 door opening**  
Position the drawers to the left or right hand side.

**4 door opening**  
Position the drawers to the far left, middle or right hand side.

A woman with blonde hair tied back is sitting on a light-colored sofa, leaning back and looking at a smartphone. She is wearing a thick, grey, textured knit sweater and blue jeans. The scene is lit with warm, golden light, suggesting a sunny day. The sofa has several cushions, and a white furry rug is visible in the foreground.
