LAMINATE

For a stylish look that won't break the bank, laminate is the smart solution. Plus, there's enough designs, edge profiles and finishes to make it truly yours.

THINK SINKS

Whether you're washing up or getting a drink, the sink is one of the hardest-working parts of any kitchen. So pick the material that's right for yours, from glossy granite to shiny stainless steel.

ARRANGEMENT

SINGLE BOWL

The classic kitchen layout, a single bowl sink is both handy and efficient – leaving more space for drainage and drying.

EXTRA LARGE BOWL

Ideal for bigger pots, plates or grill pans, an extra-large bowl lets you tackle the things that simply won't fit in the dishwasher.

1.5 BOWL

The best of both worlds, a 1.5 bowl has the flexibility you need for prepping and cleaning food, alongside the usual washing up.

INSET, UNDERMOUNT OR BELFAST

From sub-surface undermounts to installed-from-above insets and bottom mounted Belfasts, the sink you choose will determine the worktop and finish you can get – so check your sizes and weights ahead of time.

STAINLESS STEEL

For a timeless sink that's hard-wearing, hygienic and easy-to-clean, try Stainless Steel. They're stain, rust, temperature and corrosion-resistant.

GRANITE

The luxurious modern choice to last a lifetime, our stylishly natural granite sinks are supremely tough – resisting heat, scratches, stains, bacteria and more.

STONE-EFFECT

Lightweight but long-lasting, our sleek stone-effect sinks are heat-resistant, stain-resistant and come in a range of eye-catching colours that won't break the bank.

CERAMIC

Stylish and practical, our traditionally-made ceramic sinks are hygienic, heat-resistant, scratch-resistant and non-fade – ready to handle whatever you throw at them.

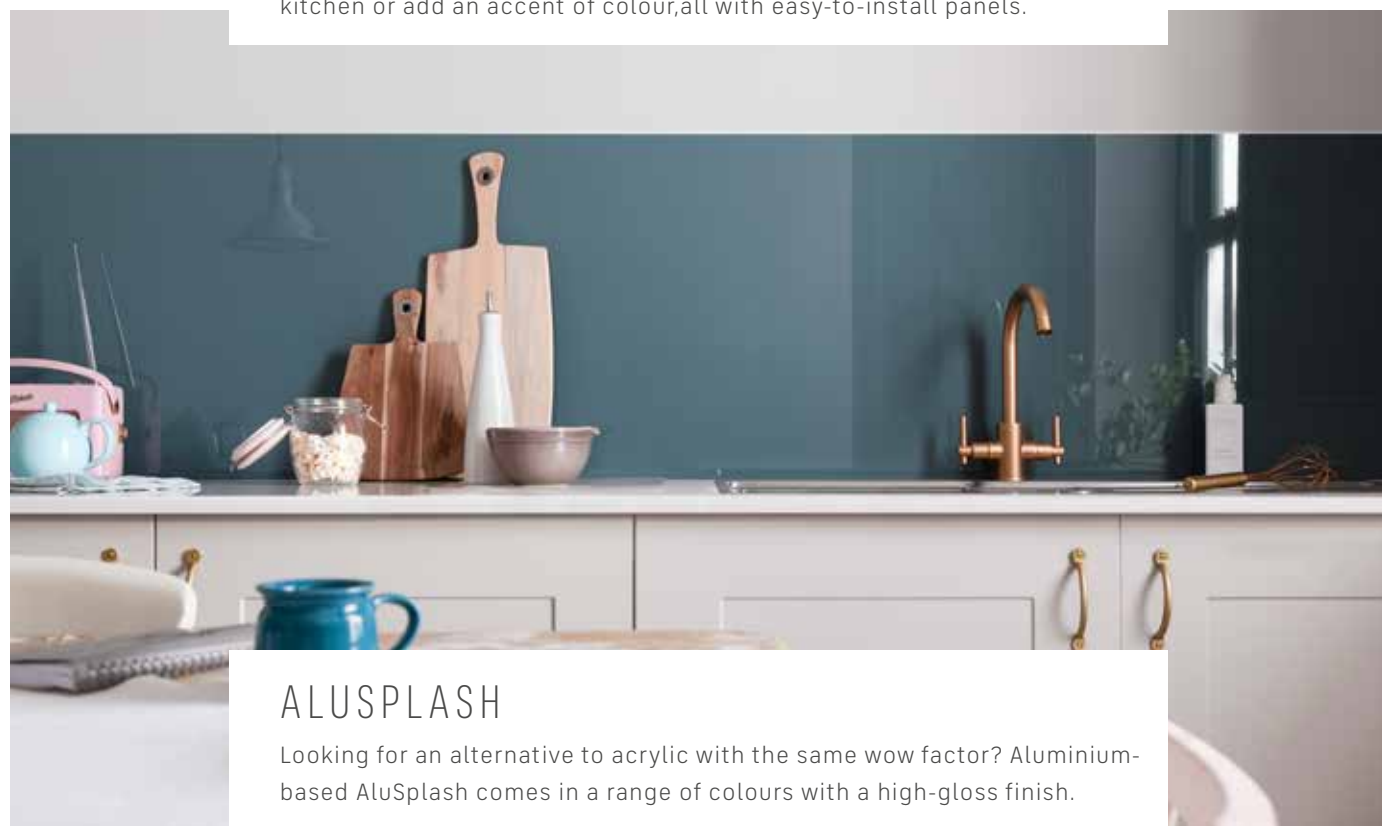

WHICH SPLASHBACK?

Protect your kitchen walls from spills and stains with our selection of splashbacks, available in a range of materials and colours, so that you can add both practicality and excitement.

ZENOLITE SPLASHBACKS

Adding that wow factor, Zenolite splashbacks can complement your kitchen or add an accent of colour, all with easy-to-install panels.

ALUSPLASH

Looking for an alternative to acrylic with the same wow factor? Aluminium-based Alusplash comes in a range of colours with a high-gloss finish.

TAP TYPES

From single lever to instant hot, choose the tap that's right for your kitchen with our wide range.

DISHWASHERS

TIME SAVING

Quicker and more hygienic than washing up by hand, save yourself time and effort by investing in a dishwasher. Plus, with slimline options – you can fit one in even the smallest of spaces.

WATER SAVING

Fitting 12-14 place settings as standard, a dishwasher can fit all your dishes at once, saving water by washing at a higher temperature, with less detergent needed too.

ENERGY EFFICIENT

Our dishwashers aren't just water-efficient, but energy efficient as well – using less power to leave you with a lower bill.

LAUNDRY

Whatever you want to wash, we've got a range of machines to match. From separate washers and dryers to all-in-one models, doing the laundry has never been so easy.

Families can produce a lot of laundry, so cut down on the hassle with a large capacity washing machine. A drum with a 6kg capacity can take up to 30 adult t-shirts – a 9kg drum can handle 50! A good choice of programmes will make life easier too – quick-wash will have your favourite jeans back to you within the hour, while intensive cycles will get the mud out of even the most enthusiastic footballer's kit!
