

Product Data Information for Users of Honda Miimo (Art. 3 (2) EU Data Act)

Your Honda Miimo (e.g. HRM1000, HRM1500, HRM1500 Live, HRM2500, HRM2500 Live, HRM4000 Live) generates product data which you may access and manage in accordance with the statutory regulations, in particular the EU Data Act.

In this Product Data Information, we inform you, in your capacity as a user under the EU Data Act (see definition below), which type of data your Miimo generates, potential volume of such data, how it is stored, shared and how you can access and manage such data, and which rights you have regarding the data. We therefore ask you to read the following information carefully.

Definitions

Connected Product means an item that obtains, generates or collects data concerning its use or environment and that is able to communicate product data via an electronic communications service, physical connection or on-device access (e.g. a connected lawnmower);

Product data is data generated by the use of a connected product that is designed to be retrievable, via an electronic communications service, physical connection, or on-device access.

User is a person that owns a connected product or has the right to use that connected product or that receives related services.

Data holder means a natural or legal person that has the right or obligation to use and make available data, including, where contractually agreed, product data or related service data which it has retrieved or generated during the provision of a related service.

Regarding the terms used in this Information, we also refer to the definitions in Art. 2 EU Data Act.

In accordance with Art. 3 EU Data Act we provide the following information to users:

1. the type, format, and estimated volume of product data which the connected product is capable of generating:

When you use your HRM1000, HRM1500, HRM1500 Live, HRM2500, HRM2500 Live, HRM4000 Live the product collects and transmits certain Product Data. This data can be stored both on-device or on a remote server at the same time. This involves the following data:

- a) *Type of data*: CAN data generated by the computer in Miimo including the following: Sensor data, Miimo status control data, history data in Miimo and settings.
- b) *Format*: Data will be provided to the user as csv file.
- c) *Estimated volume*: product data that the HRM3000 Live is capable of generating depends on how often and for how long it is used. The data generated and transmitted continuously and in real time can reach a volume of up to 128KB.

2. whether the connected product is capable of generating data continuously and in real-time:

Yes, the product is capable of generating data continuously and in real-time.

3. whether the connected product is capable of storing data on-device or on a remote server, including, where applicable the intended duration of retention:

Historic data stored on servers is automatically deleted at a 2-year time limit. Historic data stored on device based on storage capacity (oldest data deleted when maximum storage capacity reached).

4. how the user may access, retrieve or, where relevant, erase the data, including the technical means to do so, as well as their terms of use and quality of service:

a) How users can access product data

If you are a user, you can visit the EU Data Act Compliance screen on the Miimo app (select from the drop down menu in the top right hand corner of the app Home screen), and follow the steps described in the app to retrieve the data.

b) How you can erase product data:

Data can be deleted from the machine by making a factory reset in Miimo display screen and app settings menus. For erasure from Honda server users may consult with HME contact center. Data can only be erased entirely (not in part).

5. Changes to this Product Data Information Policy

New legal requirements, company decisions or technical developments may lead to changes to this Product Data Information and require us to adapt this Product Data Information document accordingly. The current version can be found on our website. Please note that external links to third-party websites or their contact information may change over time. If you find information that is no longer up to date, please let us know.
