Your Mii characters might be just like real life, or they might act in totally unexpected ways. One thing is certain: when you put a whole bunch of different personalities together, hilarious things can happen! **Almost anything is possible in Tomodachi Life!**

What is Tomodachi Life?

What does "Tomodachi" mean?

Tomo-da...what?! "**Tomodachi**" means "**friend**" in Japanese, and friends are at the heart of this game. Put your buddies, family members and secret crushes in the game and watch what happens! Who will fall in love? Who will fall out? Who will get married?

What do you do in Tomodachi Life?

In Tomodachi Life your Mii character will live in an apartment block on your very own slice of paradise – and you decide who else lives there with you. Customise your community by making Mii characters of anyone you want, and **giving them personalities and voices!** As director to their lives, your residents will need your help to make their dreams come true. **Check back every day** to hang out with them, help them out and watch as their relationships grow...

Bring your Mii characters to life

Create Mii characters

Take pictures of people – or of other pictures – to get your favourite people in your game

Give them a voice

Once you've created a Mii character, you can **give them a voice!** In your game, Mii characters will talk to you to tell you how they're feeling, and sing songs with this voice, too. Adjust the settings to get the Tone, Pitch and Accent just perfect!

Make them talk!

It's all about personality!

After you've given your Mii characters voices it's time to **give them personalities!** Adjust the sliders to set each Mii's personality; this affects how they act and the things they say! There are 16 unique personalities, each with their own likes, dislikes, and attitudes – which one will you get?

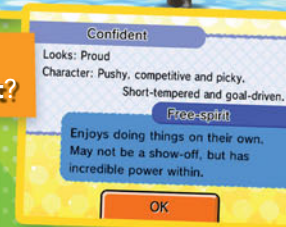

Create and customise your Mii character so they look just right! Make a Mii character from scratch by choosing the eyes, nose, hairstyle and more. You can also **import Mii characters** from Mii Maker, or create a Mii character by **snapping a shot** of someone you know – or even of another photo! Try to make as many unique faces as you can!

Who will you make?

Are you a **Charmer?**
An **Optimist?** A **Free-spirit?**

Is your Mii Personality like you?

Watch their lives unfold

As your Mii characters have different personalities, they'll get along better with some people than others. They'll make friends, fall out, or maybe even fall in love. Some might get married and start their own families! Part of the fun is watching the ridiculous, silly, hilarious drama of life unfold...
