

## Permitted food, drinks and condiments list for meal inspiration

There are additional low calorie foods allowed whilst following the OPTIFAST Program, which can add variety to your meals and assist in compliance.

See below for a list of the additional allowances permitted during the OPTIFAST Program.

### Low Starch Vegetables

The recommended allowed vegetables on the OPTIFAST Program are low starch or low carbohydrates and also low calorie. The table below lists what vegetables are recommended whilst on the OPTIFAST Program. The OPTIFAST Program calls for at least 2 cups a day of allowed vegetables, but increasing that quantity makes little difference to your weight loss, adds extra nutrients and helps you to feel satisfied.
