

Precision Biotics®

ALFLOREX® CHEWABLE TABLETS

User Information

Alflorex® Chewables have been specifically developed with the unique **35624®** strain, which was discovered and developed by PrecisionBiotics and has been scientifically studied in partnership with experts from a world-leading centre of research into the microbiome. This naturally occurring strain belongs to *Bifidobacterium longum*, a bacterial species that may be passed from mother to baby at birth.

Food supplements should not be used as substitutes for a varied diet and a healthy lifestyle.

DIRECTIONS: Take one chewable tablet of **Alflorex®** every day. Do not exceed the stated dose. Excessive consumption may produce laxative effects. **Alflorex®** Chewables can be taken at any time of day, with or without food.

For best results, do not take hot or acidic drinks such as fruit juices at the same time as **Alflorex®** Chewables.

STORAGE: No refrigeration required. Store below 25 C. For best results store in the original container with the lid securely closed. **Keep out of reach of children.**

QUESTIONS

Can I take **Alflorex®** Chewables with other food supplements and with medicines?

Yes. There are no known adverse interactions of **Alflorex®** Chewable Tablets with other food supplements or with medicines. If you are prescribed antibiotics, it is best to take **Alflorex®** Chewables at a different time of day from the antibiotics because the bacteria in **Alflorex®** Chewables can be inactivated by antibiotics. If you have a serious medical condition or have questions about whether **Alflorex®** Chewables are suitable for you, please consult your doctor.

Are there any side effects of taking **Alflorex®** Chewables?

There are no known side effects of taking **Alflorex®** Chewables. It is a food supplement containing bacteria belonging to a species that may be passed naturally from mother to baby at birth, and which may live naturally in the gut. The safety of the **35624®** culture contained in **Alflorex®** Chewables has been confirmed by research studies in humans. During the first 2 weeks taking **Alflorex®** Chewables, as the bacteria begin to gently prime the gut, some people may experience mild and temporary changes in their gut.

Are **Alflorex®** Chewables suitable:

- **For those with diabetes?** Yes. There is only a very small amount of sugar contained in each tablet of **Alflorex®** Chewables, which will not affect blood glucose levels.
- **During pregnancy and breastfeeding?** Yes.
- **For those who follow a vegetarian diet?** Yes.

Are **Alflorex®** Chewables free from gluten, dairy, lactose and soya and other allergens?

Yes. The raw materials used for **Alflorex®** Chewable Tablets do not contain any of the allergens listed in the Regulation (EU) 1169/2011, and the manufacturing facilities ensure there is no cross contamination from allergens.

Precision Biotics®

Will the bacteria in Alflorex® Chewables reach my gut alive?

Yes. **Alflorex®** Chewables are specifically formulated to ensure that the bacteria contained in them will remain viable through your gut. One tablet of **Alflorex®** Chewables contains 1×10^9 colony forming units (CFUs) of the unique **35624®** culture. The number of bacteria in each tablet has been scientifically studied and chosen for optimal effectiveness.

How quickly do Alflorex® Chewable Tablets work?

Alflorex® Chewables begin working immediately. The specially selected **35624®** culture in **Alflorex®** Chewables should reach your gut in peak condition within a few hours of taking **Alflorex®** Chewables. During the first two weeks, **Alflorex®** Chewables will begin to gently prime the gut where it is needed. When taken every day, you can expect to feel the full effects of **Alflorex®** Chewables within four to eight weeks.

How do you feel? You may find this table useful to record how you are feeling before and since taking **Alflorex®** Chewables E.g. *“Good, I feel in control and can plan my day”, “I have more good days than bad”, “I don’t feel in control. I can’t predict what will happen next”.*

BEFORE	AFTER 2 WEEKS	AFTER 4 WEEKS	AFTER 8 WEEKS

How long should I take Alflorex® Chewables for and what happens if I stop?

The bacteria in **Alflorex®** Chewables stay in your gut only for as long as you continue to take them. After that, they will be naturally swept out by bowel movements, which is why it is important to continue to take **Alflorex®** Chewables every day to keep your gut primed.
