Mira Universal Shower Hose
Genuine Mira Spare Parts
and Accessories

Mira Universal Shower Hose

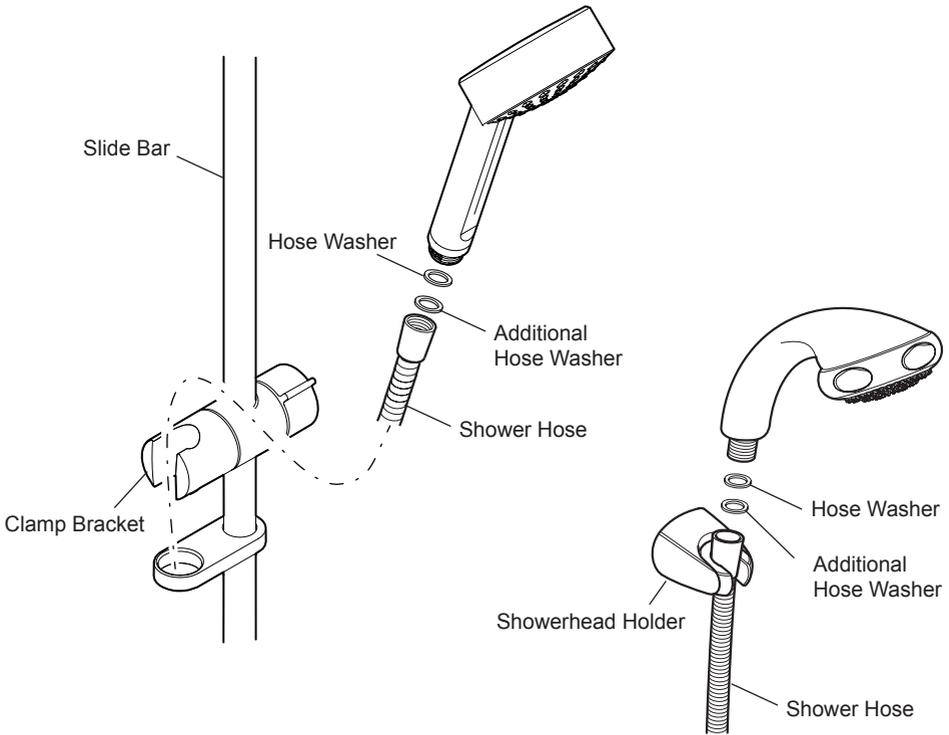

The Mira Universal Shower Hose has slightly different sized conical connections at each end.

This allows the shower hose to fit many types of clamp brackets and showerhead holders.

If, after installation the hose is too loose or too tight in the clamp bracket / showerhead holder, simply disconnect and refit with the conical connections at opposite ends.

Conical connections vary slightly in size from each other

Note! The Mira Universal Shower Hose has been supplied with 2 extra hose washers, if the hose should leak following installation, simply add additional washers.
