

Your friends
will want to know—
“How’d you
GET THAT GLOW?”

Introducing
LUMIVIVE™
FOR SKIN THAT THRIVES

GET YOUR GLOW ON ALL DAY LONG

With full atmospheric protection against blue light and pollution,
you may see truly **RADIANT** skin in as few as 14 days¹

With benefits that are cumulative with continued use.

You really can't live in today's world without world class protection from pollution AND blue light from phones, tablets, TV screens and computers.

Help achieve that healthy-looking GLOW by using **LUMIVIVE™ DAY Damage Defense Serum** in the morning for all-day protection.

A dermal bio-barrier that doesn't wash off or wear off—
and you never have to reapply during the day.

THE
LUMIVIVE™
SYSTEM IS YOUR
BREAKTHROUGH
SKIN CARE
ESSENTIAL

OVERNIGHT POWER TO HELP SKIN RECOVERY

Nighttime sleep plays a key role in skin recovery and health

- Your body uses the sleep cycle to repair and reverse daily skin damage
- As you age, the skin has a tougher time repairing itself
- Stress can also decrease skin's ability to recover

With LUMIVIVE™, you may be sleeping, but your skin
will be working out.

LUMIVIVE™ NIGHT Revitalize Repair Complex helps enhance that very important sleep-repair cycle.

Give your skin more power to resist the environment's attack during the day and recover itself *overnight*.

Introducing
LUMIVIVE™
FOR SKIN THAT THRIVES

YOUR SKIN NEEDS LUMIVIVE™

to *get that glow* because what you can't see is hurting your skin

Your skin has to put up with a lot these days. No matter where you live or what you do, your skin is constantly under attack from modern day threats.

POLLUTION

CAN MAKE SKIN LOOK TIRED AND STRESSED

WHO KNEW?

92%

Of the population lives where outdoor air pollution exceeds World Health Organization (WHO) ambient air quality guidelines.²

BLUE LIGHT

ACCELERATES SKIN AGING AND DAMAGES SKIN, TOO

WHO KNEW?

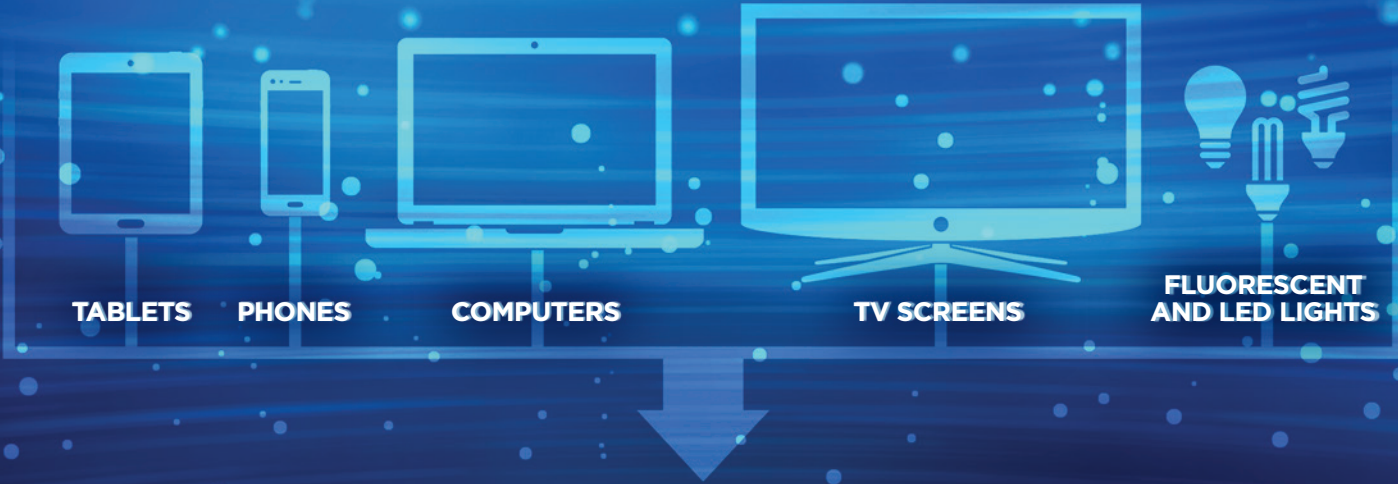

10hrs/day

Screen time

Average for each of us. That's a LOT of blue light hitting vulnerable skin.³

DON'T LET THE GLOW FROM BLUE LIGHT PREVENT THE GLOW OF RADIANT SKIN

How often are you in front of these screens?
((we practically BASK in blue light!))

They all emit damaging blue light. AND, blue light can cause⁴:

ACCELERATED AGING

DARK SPOTS

WRINKLES

SAGGY OR LOOSE SKIN

Your friends will notice before you do

PHYSICIANS ARE NOTICING VISIBLE RESULTS IN AS FEW AS 14 DAYS¹

RADIANCE	SKIN TONE EVENNESS	APPEARANCE OF SKIN DISCOLORATION	VISIBLE REDNESS
----------	-----------------------	-------------------------------------	--------------------

“Her skin looks
very radiant
at this visit.”¹

“Smooth skin...
pores look smaller,
more even
skin tone.”¹

“The patient appears to
have a healthier glow
at week four.”¹

“The patient has a more
even complexion and
reduced visible redness
in her week-two photos.
Her under-eye area
appears brighter.”¹
